

# VUSAFE PANEL survey of components

A practical solution for protecting glass areas during hurricanes, nor'easters, or for seasonal closure. VuSafe panels are lightweight, easy to use and allow natural light to fill your space.

**HURRICANE PROTECTION.** VuSafe panels and attachment options have been tested in accordance with the requirements of the International Building Code per ASTM standards E330, E1886 and E1996.

## Attachment Methods

## Frame Colors

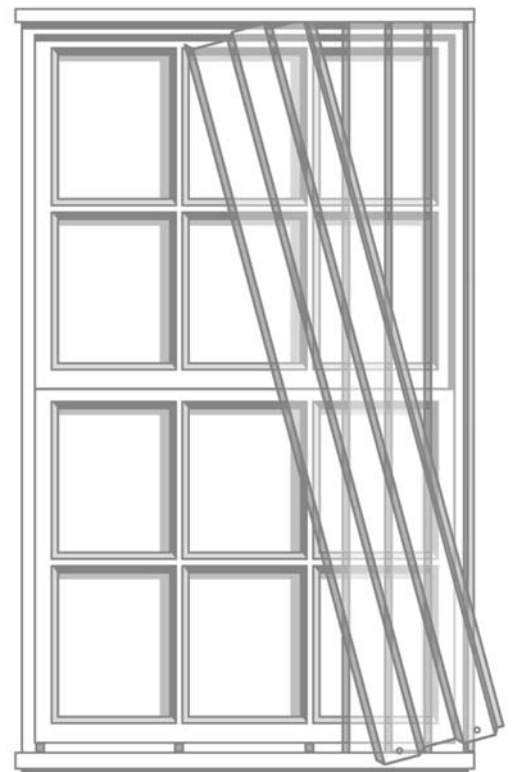

white

medium gray

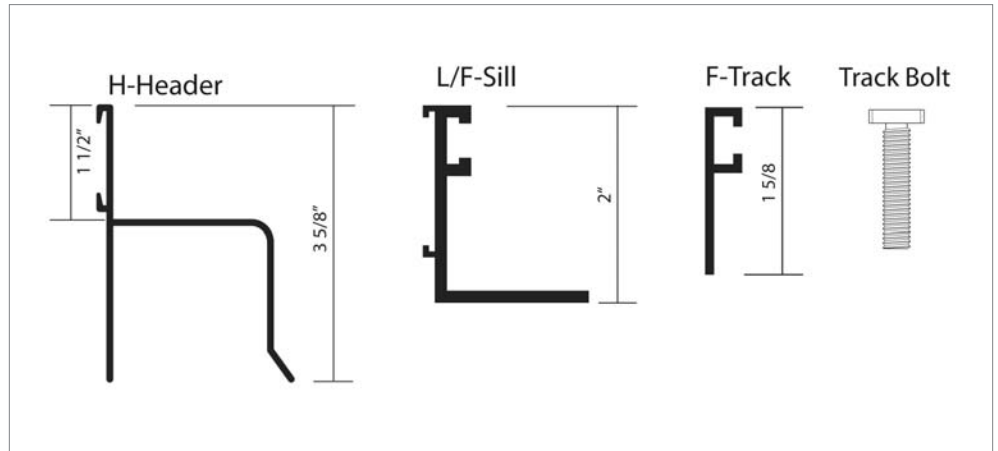

dark bronze

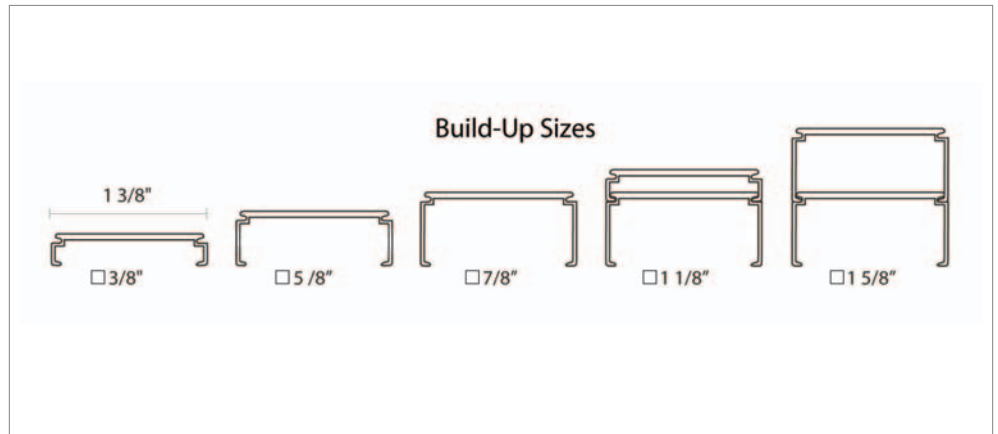

## ALUMINUM CHANNELS

Extruded aluminum channels secure the panels on the top and bottom with a variety of attachment methods. These may be permanently installed or removable as needed. Provided in white and dark bronze and may be painted. Optional built-in headers for new construction shown on reverse.

## ALUMINUM BUILD-UP

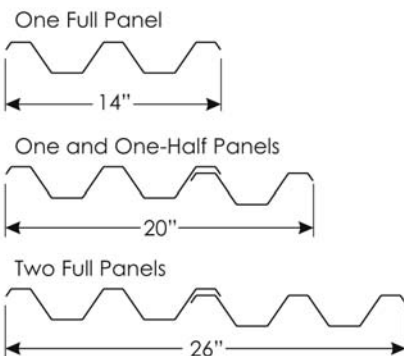

Extruded aluminum rail extensions used to adjust mounting plane of attachment channels. The build-up is designed to slide onto the back of the guide rail. Incremental sizes of 3/8", 5/8" and 7/8" may be combined to achieve desired depth.

## PANEL CONFIGURATIONS

Polycarbonate/GE Lexan clear panels of .095" thickness are measured and pre-cut to fit windows and doors. Panel widths are 14" nominal width with a depth of 1-7/8". Each panel has two corrugations 6" o.c.

### EXAMPLE CONFIGURATIONS

Number of Panels		Total Width (rounded)	Number of Panels	Total Width (rounded)
1	Full Panel	14"	10	Full Panel
1-1/2	-	20"	10-1/2	-
2	Full Panel	26"	11	Full Panel
2-1/2	-	32"	11-1/2	-
3	Full Panel	38"	12	Full Panel
3-1/2	-	44"	12-1/2	-
4	Full Panel	50"	13	Full Panel
4-1/2	-	56"	13-1/2	-
5	Full Panel	62"	14	Full Panel
5-1/2	-	68"	14-1/2	-
6	Full Panel	74"	15	Full Panel
6-1/2	-	80"	15-1/2	-
7	Full Panel	86"	16	Full Panel
7-1/2	-	92"	16-1/2	-
8	Full Panel	98"	17	Full Panel
8-1/2	-	104"		
9	Full Panel	110"		
9-1/2	-	116"		

**NOTE:** This table is for determining Finished Width Only
